LOCATION

Garden City is situated in the heart of San Eugenio Bajo, one of the most prestigious and desirable areas of Costa Adeje. The nearest beach, Playa de Troya, is located only approximately 300 metres from the complex, around a 4-minute walk away. Puerto Colón, the seafront promenade, numerous restaurants, cafés, bars and tourist attractions are all within easy walking distance.

Another major advantage is the proximity to San Eugenio Shopping Centre, located just 150 metres from the complex. Supermarkets, shops, pharmacies, banks and all essential services can be found nearby, making the property ideal both as a holiday home and as an investment.

This location attracts visitors from all over Europe throughout the year, ensuring excellent rental demand and strong investment potential.

THE COMPLEX

Garden City is one of the best-known apartment complexes in Costa Adeje, highly valued for its prime location and well-developed tourist infrastructure.

Residents and guests can enjoy two swimming pools, including one heated pool, allowing year-round use. The complex also features a pool bar, providing the perfect setting to relax and enjoy the holiday atmosphere.

The complex is monitored and secured, ensuring a high level of comfort and safety for both residents and guests.

The beautifully maintained communal areas include landscaped gardens and green spaces that create a pleasant tropical environment. The complex also offers lifts and a reception service supporting tourist rentals.

INVESTMENT HIGHLIGHTS

The property is currently operating as a successful tourist rental and already has confirmed bookings through March 2027.

The sale includes the transfer of all existing reservations to the new owner, who will receive the full income generated by those bookings.

Current average rental rates are approximately €80 - 90 per night, with significantly higher rates achieved during peak season and the Christmas and New Year period.

An additional advantage is the possibility of legally operating tourist rentals with the support of the complex reception. Owners may attract guests independently through Airbnb or other marketing channels while using the reception services for guest assistance, check-in, check-out and cleaning coordination. Full rental management by the complex operator is also available.

As a result, this property represents a turnkey investment opportunity capable of generating income from the very first day of ownership.
